About

The works I present here are a humble tribute to this being who always brings us back to life, to this invincible war, to the woman mother of all, to the mother of mothers.

Adolfo Rua lives in Sitges, near Barcelona. Born into a family of artists, he received the gift of the paintbrush at birth. A "loner", Adolpho is a spiritual being who expresses nature, life and silence through his work. His creations speak for themselves, conveying the emotion of creation and the sounds of the soul. Throughout his career, this international artist has taken part in art fairs in London, Stockholm, France, Italy, the United States and elsewhere. Now exhibiting here at FRESA y CHOCOLATE Gallery, he delights us with "Genesis".
